To Whom It May Concern

**Subject: Company Name Change** 

Dear Sirs / Madams.

In April 2022 SCP Science joined the AnalytiChem family. Since that time, we have been busy investing in our business and expanding our range of products. We are pleased to announce that SCP Science will now take the next step in the integration process by becoming **AnalytiChem Canada Inc. on March 1**st, **2024.** The company name "SCP Science" will not be kept.

Please be assured that this transition is purely a change in NAME, and all other aspects of our commitment to providing you with exceptional products and services, brand names including Conostan remain unchanged.

You will continue to work with the same knowledgeable and dedicated partners. If you have any questions during this transition, please don't hesitate to reach out.

Sincerely yours,

Li Chen
